**flutter.shrew** 11/1/2019 3:44 AM

Once upon a time there was a merchant who was travelling to india. He asked his parrot if he wanted anything. He wanted him to tell the other parrots there that he misses them. The merchant then went to india. He told the parrots that his parrot misses them. One of them got depressed and fell down and died.

The merchant was very sad that he killed a parrot. He regretted telling them that the parrot misses them.

When he went home, the parrot asked:"did you deliver my message?"

The merchant sadly said:"yes, but one of them got depressed and died"

His parrot got depressed after hearing that and fell in his cage and died. The merchant was very disappointed in himself that he made the same mistake twice. He took the parrot's body to bury it, as soon as he opened the door the parrot woke up and flew away:"that was the way my people told me how to escape"

The end

can we have notsobot here

lets make a Crimson Test server (ill make it)

why

to test features

like what

bots, channels. etc

set them up to see results

we can do it here

but it'd become messy

and notsobot doesn't need to be tested

i mean like

when we get suggestions  
to test em there  
and what makes you think we are accepting bot suggestions

**Morticia [∞p]** 11/1/2019 10:09 AM

NotSoBot BOT 11/1/2019 10:12 AM

### caufas

An intellectual who has to deal with idiots on a daily basis. They're smart, introverted, and depressed people who hates morons. When they are around these donkeys who are less intelligent than the average human, they turn into psychopaths. They are often misunderstood for being an arrogant and narcissistic little shit just because they're interested in philosophical discussions and other nerdy stuff that simple-minded people don't find very interesting.

Caufas dislikes simple-minded people who just goes with the fucking flow and don't contemplate their own existence and the universe itself and people who tell them to "just ignore it" fucking dumb bitch.

Caufas browses /jp/ and masturbates to Touhou Project hentai because Caufas have very boring lives and have literally nothing else to do except to watch hentai and listen to Touhou music and Steins;Gate openings.

Oh and they hate being called chicken and is a fan of exurb1a.

### Example

Caufas: "I had godly foresights, he had beans."

Retard 1: "Woah that guy is being philosophical again! He is trying to look smart lololol..."

Retard 2: "Lol ikr! people like that are called Caufas!!"

Retard 3: "LOL!! he thinks he is so cool haha XD"

when Nico cleared chat

Well, ~1h passed, and Seth released a policy stating advertising can only be done once per hour

**Deleted User** 11/1/2019 11:16 AM

asshole

of course

he *is* an asshole

**Morticia [∞p]** 11/1/2019 11:17 AM

perhaps we should consider more covert advertisement methods that ignore the 1 hour rule

**Morticia [∞p]** 11/1/2019 11:27 AM

anyway @Deleted User distribute the items you made

**Deleted User** 11/1/2019 11:28 AM

my ideas are immaculate (!)

Morticia [∞p] 11/1/2019 11:29 AM

yes

Lyra 11/1/2019 11:30 AM

question, does TF still let you make spawns?

Morticia [∞p] 11/1/2019 11:30 AM

you can make them

but you can't set them as spawns

Lyra 11/1/2019 11:31 AM

i remember you could ask admins to set them as spawn though

Morticia [∞p] 11/1/2019 11:31 AM

yes

Lyra 11/1/2019 11:32 AM

integrate an advertisement into a spawn that you build

its probably the most direct approach there is

also question, how long does the video have to be

and does it have to be saying good things about the server?

Morticia [∞p] 11/1/2019 11:37 AM

at least 5 mins

yes

only good things

Lyra 11/1/2019 11:37 AM

oh

uhhhhh

Morticia [∞p] 11/1/2019 11:37 AM

also put the server IP

and the invite link to the clan

Lyra 11/1/2019 11:38 AM

thats gonna make this quest alot more difficult then

because i can't mention the admin community entirely

well most of it atleast

don't think i wanna do this quest in all honesty

**Deleted User** 11/1/2019 11:44 AM

Im makin a classic movie on tf

**Lyra** 11/1/2019 11:54 AM

noice

**Lyra** 11/1/2019 12:14 PM

okay so

i made a spawn with a secret chamber that has a link to this server

**Deleted User** 11/1/2019 1:14 PM

We are basically rebels now right?

Seth hates us

harry is 3

Deleted User 11/1/2019 5:41 PM

yukari super admin when????!?

Lyra 11/1/2019 5:46 PM

@Deleted User question

is there any regulations on advertising via signs on TF?

Deleted User 11/1/2019 7:11 PM

uh yes

Lyra 11/1/2019 7:20 PM

and those are?

Deleted User 11/1/2019 8:23 PM

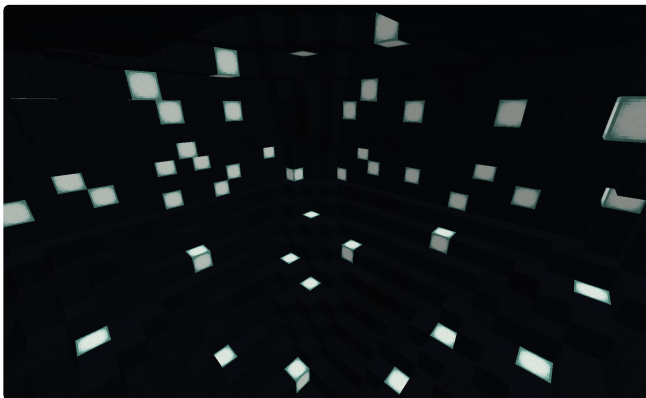

Those can classify as advertising per hour only if you place them in a public place like spawn

If you put them at a private warp you will only be able to advertise the warp per hour  
no loopholes

Deleted User 11/1/2019 9:43 PM

Can you rate my mini build?

Morticia [∞p] 11/1/2019 10:31 PM

@Deleted User A persistent book or sign is not advertising per hour

it has only been placed once, you technically have to punish the user who saw the sign more than once per hour as they are being near it and thus advertising it (if someone teleports to the player) (edited)

also nice mini build @Deleted User 10/10

**Deleted User** 11/1/2019 11:29 PM

As I've said, no loopholes

sorry

Enlightenment > +25 Intelligence

Morticia [∞p] 11/2/2019 12:59 AM

Oh

Deleted User 11/2/2019 12:59 AM

.urban enlightenment

NotSoBot BOT 11/2/2019 12:59 AM

### enlightenment

More than just the simple belief that divinity lies within all life equally, it is the personal experience of this. It is feeling this spirit that dwells in all life, "oneness", that turns this belief into a personal knowing.

### Example

Your inner state of being that was present as young a child but lost around the age of 2 or 3. This inner quality found joy from within, laughed endlessly, and had wondered in awe of the world.... no worries or burden carried around as a result of the passage of time...enlightenment, the experience can be measured by the depth and degree of inner peace.

### Example

I think therefore I am not one of enlightenment.

I see it therefore I am not yet one of enlightenment.

I experience it therefore I am not yet one of enlightenment.

My mind projects an invisible shell around me which separates me from my environment therefore I cannot, as much as I would wish it, be yet enlightened.

Your experience is a puppet and you only are always pulling the strings.

### Example

"Johnny...you've been in the bathroom for a long time..."

"Fuck you mom, I'm becoming enlightened!" Nirvana is the state of enlightenment reached after expelling all nuggets of waste from your body.

Morticia [∞p] 11/2/2019 1:12 AM

Crimson set (armor + sword + key)

hotbar.nbt

11.25 KB

equip every armor piece then hold the key to remove the hp debuff  
anti-piracy measures lmao

**Deleted User** 11/2/2019 1:16 AM

intresting

Smart

May I ask why did you upload as a .nbt file?

**Morticia [∞p]** 11/2/2019 1:18 AM

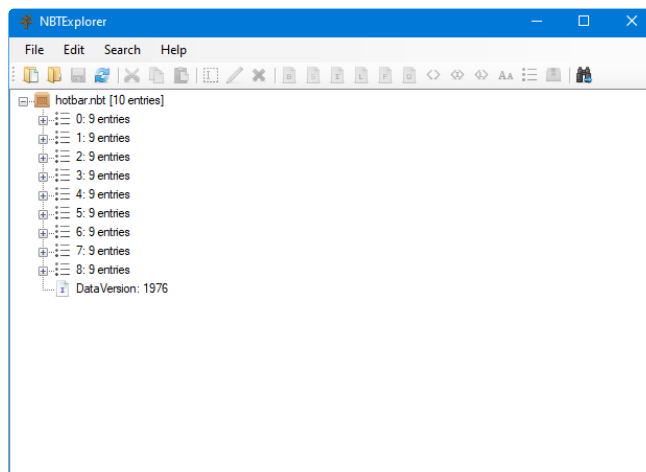

it's a hotbar.nbt file

so every member of the clan can download it and use it  
only give the key to ppl you trust  
but you can freely give away the armor set

**Deleted User** 11/2/2019 1:19 AM

If people got the file they can make "cracked" versions

**Morticia [∞p]** 11/2/2019 1:19 AM

Yes

but this is the clan server  
and not everyone can use nbteditor  
most are leechers

**Deleted User** 11/2/2019 1:19 AM

**Morticia [∞p]** 11/2/2019 1:20 AM

now we don't (1.14.4)

Deleted User 11/2/2019 1:20 AM

um

how did i do that

which naturally means the likelihood of being cracked is unlikely  
you pinned it

Deleted User 11/2/2019 1:20 AM

wait i had a plugin install

with shift plus click i can pin

Morticia [∞p] 11/2/2019 1:21 AM

oh okay

This also opens up the possibility of hacking into enemy armor

if we do the reverse (get the UUIDMost + Least of the enemy armor piece[s]) and make an  
item with the same UUID but a negative modifier)

it doesn't seem to work for other attributes tho

wait let's try smth

**weeb**

Lesser version of a weeaboo. Watches CGDCT anime, may or may not have a body pillow/waifu, usually browses r/animemes. Whatever you do, don't call them a fucking weeb; it only makes them more powerful.

**Example**

r/animemes is full of weeps.

**Example**

random: wait you like anime?

weeb: yeah, why?

random: doesnt that make you a weeabo or something?

weeb: no those are the cringe anime fans. people like myself refer to our kin as weeps.

random: fucking weeb.

weeb: exactly.

**Deleted User** 11/2/2019 6:44 AM

.urban weeaboo

**NotSoBot** BOT 11/2/2019 6:44 AM

### **weeaboo**

A person who retains an unhealthy obsession with Japan and Japanese culture, typically ignoring or even shunning their own racial and cultural identity. Many weeaboos talk in butchered Japanese with the 8 or so words they know (i.e. kawaii, desu, ni chan). While weeaboos claim to love and support Japanese culture, counter intuitively, they tend to stereotype Japanese culture by how it appears in their favorite anime, which can be safely assumed to be offensive to the Japanese.

### **Example**

If you love and respect Japanese culture and your own, you are not a weeaboo.

Merely liking anime or wanting to learn Japanese does not make you a weeaboo.

### **Example**

Joey: "Jesus christ, that weeaboo kid is coming up to us" Will: "Hey, liking anime doesn't make you a weeaboo." Joey: "Trust me, Daniel is a proper weeab-" Kawaii Daniel-kun: "KONNICHIIWA SENPAIIIS! NICO NICO JOEY-CHAN DAISUKIIII!"

### **Example**

Weeaboo's basically disrespect the culture and make complete asses of themselves

then ban those items

im bad at writing

**Morticia [∞p]** 11/2/2019 10:51 AM

you write the enable nbt data from toolbars

okay

Enable saved toolbars (specifically, the nbt data of items taken from there; currently it is purged when you hold the item taken). Many people bring PvP items from them (PvP being an important part of TF for a majority of active pkayers) and other fun items (like customized fireworks, banners, shields). Therefore, the functionality of saved toolbars should be fully enabled and the nbt data of the items from there not purged.

Crash exploits aren't a reason either; anyone can download a hacked client or write one themselves to recreate their exploit. This restriction doesn't harm the hackers, it harms the normal users.

tell me if you get a vouch lmao

**Morticia [∞p]** 11/3/2019 2:55 AM

dont forget the jumpscares

in a ball room

with some

guy standing there

that turns around and spoofs u

**Morticia [∞p]** 11/3/2019 2:57 AM

noah that requires a resource pack or actual armor stand animations

I'm suggesting a horror map that barely needs any effort

ok

im gonna make the laziest map ever

**Morticia [∞p]** 11/3/2019 2:57 AM

YES

and setblock

**Morticia [∞p]** 11/3/2019 2:57 AM
